

IKEBANA

The grace of the imperfect. These are the words of Toshiro Kawase, one of the greatest Ikebana masters of our time.

The centuries-old tradition from Japan is a flower arrangement art - in Japanese "Ikebana" - and is the opposite of opulent. Selected individual flowers are artfully combined and arranged with twigs and buds. The choice of colours and the staking at different heights bring harmony. Work is carried out along three main lines. Heaven (Shin), Humanity (Tai) and Earth (Soe).
