Living in the kitchen.

What is the essence of a kitchen? It needs to look good, be a centre of communication while cooking, chatting and indulging. To make your work easier and keep everything well organised. And by the by, to fulfil your wishes and requirements. While also reflecting your style whatever your budget may be. Nolte Küchen has been synonymous with first-class quality, superior design and perfect ergonomics made in Germany for over 60 years.

This being the case, it's no surprise that Nolte Küchen has been voted "Germany's favourite kitchen brand" for the third time in succession. Worldwide too, people in over 60 countries have come to appreciate what sets Nolte Küchen apart.

In this journal you will find countless suggestions and ideas on designing a kitchen as a living space that meets your personal wishes in every respect. So, be inspired for: living in the kitchen.

For the third time in succession: Germany's favourite kitchen brand.

The golden M guarantees proven quality, safety and healthy living.

We produce in Germany – also officially certified by the Verband Deutsche Möbelindustrie Deutschland e.V., the association of the German furniture industry.

Added to this, and particularly against the backdrop of current events, we take the responsibility we share for our environment and the future of coming generations very seriously. This makes us especially proud to hold two further certifications in this context!

MATRIXART900 – the handleless Nolte kitchen with base units in a height of 90 cm

Our kitchens captivate with high-quality materials:

The fronts are finished in multiple coats of high-gloss or soft mat lacquer for the most exacting of demands.

A surface that is both easy to keep clean and hard-wearing, high gloss or soft mat depending on finish.

Layers of a blend of resins, lacquer and particles of metal make the front magnetic.

As an authentic and genuine natural product, real wood conveys warmth and a sense of security.

The authentic melamine resin surface perfectly creates the illusion of real wood.

Each one of these hand-crafted fronts has a surface made of real cement and is one of a kind.

Real glass, very high-quality surface made of back-lacquered safety glass.

Extremely hard-wearing and also low-maintenance thanks to the anti-fingerprint surface finish.

Worktops and end-panel elements used, thickness in mm.

The kitchen is the room of rooms.
We probably *live* more,
and more *intensively*,
here than anywhere else in the home.
It is the place where
we meet, where we encounter others.
As family or friends.
As a couple.
We *cook*, *eat* and *enjoy* ourselves
in the kitchen. And sometimes we have
all the time in the world as we do so.
We argue. And *make up* again.
We read, write, send emails, post messages.
And maybe philosophise a little.
And – quite secretly – the kitchen sets
the rhythm of our day.
Good morning. Then midday. Then evening.
And sometimes night ...
Which is *why we love* the kitchen.

Living in the kitchen.

LIVING IN THE KITCHEN

"The kitchen is a room for cooking in. That was yesterday. Today it has become the communication hub of the home and haven of well-being. Cooking, eating, talking, laughing, living, relaxing, working – life takes place in the kitchen. That's why this room is taking on more and more significance in the home. In choosing a kitchen, you are also choosing a whole world. Living in the kitchen has many sides to it, is individual and, above all, also a matter of your personal style. And style can also be expressed in many different ways: in fashion, in the home, in the music you like, and much more besides. So why not in the kitchen?"

The good part about Nolte Küchen: individual taste and personal style are not a question of budget. And if, after browsing through this journal, you decide you would like a new kitchen, then you can get right down to planning it:
with the Nolte Küchen web planner at www.nolte-kuechen.com."

EVERYTHING ELSE IS DREARY

Do you prefer it homely, elegant or classic?
 Or maybe modern and purist, timeless or country style after all?

Whichever – Nolte Küchen gives you all the options. The planning flexibility you get ranges from the currently popular trend of black, dark colours and decors or timelessly elegant combinations, such as volcanic oak with white, and extends right through to a contemporary interpretation of the classic country-style kitchen.

- 1 MANHATTAN Oak Nero, black in its homeliest form.
- 2 FLAIR White soft mat with edge in volcanic oak – perfectly coordinated yet very individual.
- 3 PORTO White soft mat, country-style kitchen with a new face.

MANHATTAN

A TREND BECOMES A CLASSIC

The new MANHATTAN oak Nero creates a well-balanced combination of inviting homeliness and timeless elegance with its expressive surface texture which, depending on the incidence of light, changes from deep black to soft grey.

Black electrical appliances, display cabinets with black anodised aluminium frames and black tinted glass, a black worktop and a black sink with matching mixer tap give this kitchen a particularly elegant aura. The attention to detail becomes apparent on taking a look inside the units: the new display cabinets have no visible hinges, lifting their extremely homely feel.

- 1 Open shelf units and display cabinets with integrated lighting down the sides open up the otherwise somewhat understated kitchen and artistically set the scene in every space.
- 2 Black handle combination 851 goes perfectly with this kitchen.

FOR INDIVIDUALISTS**

The MANHATTAN front in oak graphite silver is a welcome, uncomplicated combination partner. It provides many different options and captivates with its expressive graining – whether tone-in-tone or, as shown here, with elements in black.

- 1 Out of view from the living area, the oven is concealed in the side of the appliance unit block.
- 2 The surface-mounted G 675 handle trim skillfully combines the elegance of a recessed handle trim with the benefits of a classic handle.
- 3 Intelligently organised drawers provide ample space.

NOVA LACK
PRACTICAL CAN BE
AS STYLISH AS THIS

An elegant, high-quality kitchen ambience is a joy and pleasure every day. All the more so when it also provides plenty of storage and space for what's dear to you. Illuminated handle trims emphasise the horizontal lines of this kitchen which manages entirely without kitchen-typical wall units while still providing plenty of storage space.

- 1 Practical boxes take everything to the table in one go and quickly clear it away again.
- 2 Everything in its place – maximum storage space perfectly organised.
- 3 The illuminated finger pulls underscore this kitchen's elegant lines.

NOVA LACK

WHITE CAN LOOK AS MODERN AS THIS

Anyone wishing to follow the trend towards a tidy, clean-looking kitchen with generous, large surfaces has no other option: tall units and appliance cabinets with uninterrupted doors. The minimalist impression is reinforced yet further by the illuminated MatrixArt finger pull profiles. The new oak Barriqué worktop decor provides the appropriate, contrasting surrounding elements, which is also reflected in the floating wall shelves.

- 1 Mixer, espresso machine or juicer: many kitchen appliances have become lifestyle objects. When they start to get out of hand but are still needed every day, this is where a top-mounted unit with lift-up door comes into its own.
- 2 Illuminated MatrixArt finger pull profiles underscore the clean look of the uninterrupted fronts on tall and appliance units.

THIS IS WHERE EVERYTHING GOES TOGETHER

A sense of harmony always pervades wherever colours and patterns create a whole – and are reflected in different parts of the kitchen. As here: where MANHATTAN volcanic oak meets the statement edge from FLAIR, perfectly colour-matched to create a look of delightful harmony. Almost invisible from the outside, it only really becomes apparent when the doors and pull-outs are opened. Also in volcanic oak, the handles complement the look of this kitchen with absolute perfection.

The MANHATTAN front in volcanic oak provides contrasts galore. Its distinctive decor ideally complements the calm SOFT LACK front. The wall unit height of 105 cm also gives this kitchen a very individual look. The units are perfectly complemented by the open shelves and a white lowboard.

- 1 Included as standard at Nolte Küchen: the matching interior decor, shown here in volcanic oak.
- 2 The white front on the central kitchen block contrasts perfectly with the volcanic oak decor fronts.
- 3 This larger unit provides perfectly accessible storage space over the full height of 210 cm.

DESIGN MEETS STORAGE SPACE

With Matrix900, Nolte Küchen has sent out a design message and makes the crossover between kitchen and living area even more fluid: the very shallow plinth in conjunction with the 900 mm carcass height not only provides an ideal working height with a huge amount of storage space but also creates a totally new kitchen look.

THE ART OF OMISSION

"MatrixArt 900 also makes handleless possible: the handle trims integrated in the carcass make the kitchen even more graphic and sleek. A completely new dimension in kitchen architecture."

Eva Brenner, interior designer, familiar from Germany's "Zuhause im Glück" (Happy at Home) TV programme.

MATRIX 900 FOR PERFECTLY USED STORAGE SPACE

Plenty of space inside cabinets: based on Matrix 150, most dimensions at Nolte Küchen are defined by a 150 mm grid system. Besides the standard carcass height of 750 mm, this results in a second base unit height of 900 mm: Matrix 900. This provides an incredible 20% more storage space – an untoppable benefit, particularly in small kitchens.

OPTIMUM USE OF SPACE

Incidentally: Nolte Küchen can always provide the right solution for sloping ceilings too – whether with Matrix 900 or with the standard carcass height at low jamb-wall height.

PRACTICAL EAT-IN KITCHEN FOR THE WHOLE FAMILY

Copious storage space, lots of work surface and a generously sized dining table make this kitchen a hub for the whole family. At the same time, huge importance has been attached to planning the kitchen with high-quality materials: this is evident in the use of PORTLAND in real cement and in the laminate PLUS fronts with anti-fingerprint surface finish.

**CLASSICS
RE-INTERPRETED**

The narrow framing on the FOCUS front is unfussy, lightweight in looks and almost purist in design. The appliance block interrupting the row of units at the back gives this kitchen a look that could, for all intents and purposes, be American in the way it feels. Illuminated display cabinets as base units open up the island to the living area. Welcome!

- 1 Provide plenty of storage space: wall units in a height of 105 cm.
- 2 Well-organised drawers and illuminated pull-outs quickly show you where everything is.

PORTO

TRADITION WITH A MODERN TOUCH

PORTO white soft mat easily makes the dream of a country-style kitchen come true. Here, the characteristic faceted look of the fronts is stylish and timeless. The integrated library and classic crockery cupboard with elegant glass cabinet doors pick up on the style of the kitchen frontage. Matching cornice profiles emphasise the country kitchen look and underscore the attention to detail.

- 1 The open end shelf element visually relaxes the ensemble of wall units and provides easy access to crockery or spices, say.
- 2 Matrix 150 even permits a properly functioning drawer directly below the induction hob.

ALL OPTIONS AT A GLANCE

This is where you can quickly find your way about all available options: the next few pages show you our wide range of fronts that are manufactured in line with the innovative Matrix 150 grid system and can feature any handle you choose – all clearly structured by price group.

LACQUERED LAMINATE

An extremely calm looking surface and optimum durability are characteristic of lacquered laminate. The fronts are made from an engineered wood panel with a lining lacquered in the course of the production process. High gloss or soft mat, just as you choose.

LAMINATE

A high-quality, soft mat and extremely hard-wearing laminate surface with anti-fingerprint properties.

GENUINE LACQUER

High-gloss genuine lacquer fronts are lacquered in several coats and then polished to produce a sealed and particularly smooth surface. Besides high-gloss fronts, fronts are also available with a soft mat genuine lacquer finish. The latter captivates with its interesting feel.

GENUINE GLASS

Genuine glass fronts – luxurious and homely. Coated with adhesive throughout, a back-lacquered pane of toughened safety glass is bonded to the high-quality substrate material. The extremely hard-wearing glass front gives the kitchen a modern transparency and feeling of space.

REAL WOOD

As an authentic and genuine natural product, wood conveys warmth and a sense of security. The natural variations in colour and texture visible in the grain are an inherent part of wood. Used in the kitchen, the natural material lends itself to quality craftsmanship while conveying its charm and character.

REAL METAL

The real metal fronts give your kitchen an authenticity that oozes with character: several layers of a mixture of metal particles, resins and colour are applied to a base panel made of engineered wood and sealed with clear lacquer. The result additionally impresses with a magnetic effect.

REAL CEMENT

The unusual feel of this surface is produced by creating irregular depressions in a panel made of engineered wood. It is then hand-coated with cement, silica and coloured lacquer and afterwards additionally sealed with clear varnish. Robust beauty for combinations so very rich in contrast.

Perfectly balanced *in any combination.*

Colour is
Inspiration, stimulation, creativity.
Colour is life.

And provides virtually *endless*
ways of individualising a kitchen.

Warm colours are stimulating,
while cool colours tend to be calming.

Tone in tone creates *harmony*,
while a clear contrast creates
exciting highlights.

In short: nothing influences the atmosphere
of a room more than colour.

With this in mind,

PERFECT BOTH INSIDE AND OUT – OUR CARCASE DECORS

Whichever of our kitchens you choose: it's only perfect when it also meets the highest quality standards on the inside too. This is why the carcasses of every kitchen we make come with the same finish on the inside as they do on the outside to ensure an overall look of consistency – not only for wood hues but for all plain colours too.

SEALED IS WELL SEALED

With Nolte Küchen, you can take this quite literally: doors with edge seals close so perfectly that hardly any dust gets inside the cabinet.

NATURAL CHARM OR COOL ELEGANCE – WORKTOPS IN STONE LOOK, PLAIN COLOURED OR IN WOOD EFFECT

Once the quality is right, it's a matter of design. For our worktops, this means: the choice is entirely yours. Clear plain colours lend the kitchen elegance, with a realistic stone look giving the entire room structure. Anyone preferring a warm and homely environment in the kitchen sooner or later realises there is no way past a worktop in wood effect. Choose from a wide range of decors to suit your taste, and all of course in a high-quality finish to meet your exacting expectations on design.

IDEAS FOR CREATING SPACE

The optimum kitchen is always matched to the specific needs of its users. And these are as different as the characters and the lifestyles of the individuals themselves. For instance, the needs of a family of four are completely different to those of people living on their own. Different structural situations also play a big part in planning a kitchen. This is why Nolte Küchen offers all sorts of ideas and options for designing the kitchen in exactly the way its users need it to be. This all starts with careful planning and continues through to smallest of details. See for yourself on the following pages.

Ask your kitchen retailer for further information or order your copy of "My Kitchen" right here.

DOUBLY IMPRESSIVE: WITH DESIGN AND FUNCTION

Everyone has different ideas about their dream kitchen, ideas that fulfill their every wish. Your expert adviser at the kitchen retailer will focus on your very own particular ideas and needs.

The pull-out units provide perfectly organised storage space in a width of up to 1200 mm. The 750 mm planning depth provides 32% more storage space than in standard base units. And all this with just another 150 mm from the wall.

- 1 Optional interior lighting sets off the drawers and pull-outs and provides a even better view of everything inside.
- 2 32% more storage space than in standard base units – all made possible by the 750 mm planning depth.

IN THE KITCHEN, ORGANISATION IS HALF THE BATTLE

"On the subject of interior organisation, we were completely taken aback by the line-up that Nolte Küchen has to offer: starting with anti-slip mats to variable cutlery and utensil dividers in plastic or even real wood, it simply leaves you wanting for nothing. We went for the option in real oak and chose it for our kitchen – this way, everything is always in its place and the drawers and pull-outs are perfectly organised. The oak colour shade goes perfectly with the quartz grey fronts."

FOR OPTIMUM WORKFLOWS

"To ensure efficient workflows in the kitchen, we looked at the best ways of making work paths ideal while we were planning it. As a general rule here: while the refrigerating/food storage, cooking and dishwashing zones should be no more than two arm lengths apart, there should also be sufficient space for two people to cook in. This has been solved perfectly in our kitchen. Which means we don't get in each other's way when we're cooking."

- 1 Integrated downdraft extractor.
- 2 Hob with retractable extractor in the worktop.

COOKING: A SHARED EXPERIENCE

"Our kitchen centres around cooking together! When it came to choosing the most suitable hob for us, the planner's experience didn't let us down either, nor did the options available to us from a Nolte kitchen: here, everything's possible, be it induction hobs or gas, retracting extractors, downdraft extractors or also the classic extractor hood. This is precisely what we ultimately decided on, it simply goes best with our kitchen!"

THE MEASURE OF ALL THINGS

"Let's be honest: if you like cooking as much and as often as we do, the kitchen should fit in with us and not us with the kitchen. Because, in the long run, this is the only way that makes a kitchen a joy and pleasure to work in. With Nolte Küchen, it was so reassuring to know we could fit the oven at eye level and even raise the dishwasher as well. Needless to say, we were also able to define the height of the work surface."

1 Ergonomic and practical: the oven at eye level.

2 Kind on the back: the raised dishwasher.

2

EVERYTHING CLEAN IN A FLASH

"We both love to cook and, of course, this always leaves you with waste and dirty pots. So it was important for us to know right from the start that we can quickly get the kitchen cleaned up again once we have eaten. This is where the large sink with a good-sized draining board is a huge help because it means we can easily and quickly clean pots and pans we can't put in the dishwasher. To sort waste, we went for the classic option under the sink – it's organised and saves us the bother of having to take it anywhere else. And because the waste bins are suspended in a frame, we're not constantly cleaning the pull-out either because there's nowhere bits of waste can accidentally fall into."

CHILLED, FRESH OR NON-PERISHABLE ...

"... in our kitchen, there are so many different things we need to find a place for: from kitchen appliances, cookware, plates and cutlery to all sorts of food and provisions. In the larder unit, for instance, we keep all types of non-perishable food that needs to be in easy reach all the times. Fresh food goes in the large refrigerator. In planning our kitchen, we chose a solution without any corners because that's best for the space we have. But with Nolte Küchen, of course, we would also have found loads of clever ideas for the corner, such as the practical LeMans corner base unit."

- 1 Practical and space-saving:
LeMans corner base unit solution.
- 2 Practical and a storage space wizard:
the "classic" larder unit.

A LOOK OF HARMONY THROUGHOUT

"This feature, in particular, made us realise we were making the right choice: unlike most other brands, all Nolte Küchen units are finished in the same decor both inside and out, no matter which of 15 carcass decors you choose. This initially sounds like a trivial detail, but in fact it has a huge impact on the homely feel it creates: for our wall units, this means that instead of sterile white, they are finished in the same wood decor on the inside too. It fills me with joy whenever I open the cupboard. Then there's also the "edge seal" at the carcass front. It makes sure less dust gets inside the kitchen unit."

- 1 Sealing off the carcass at the front, the edge seal makes sure that less dust gets inside the unit.
- 2 Perfect inside and out, not only for wood decors but also for concrete and plain colours.

QUALITY IS A MATTER OF DETAILS

We accept no compromising when it comes to quality. Stringent testing provides the basis for ensuring that your kitchen will continue to be safe and reliable even after many years of use. This is also guaranteed by the GS label for tested safety. More important for you, though, is the high level of quality you experience every day in your Nolte kitchen, quality that is noticed in all the many details and features.

FIRMLY INTEGRATED IN NOLTE KÜCHEN: RESPONSIBILITY AND ECOLOGY

Conserving natural resources, keeping air and water clean and promoting sustainability. Three key pillars of responsible and sound ecological practice that have been anchored at Nolte Küchen for many years.

For instance, with modern filter systems for non-polluting production or with eco-friendly, recyclable packagings and only using timber from sustainable and responsible forest management. In terms of pollutant emissions, our materials fall well short of the requirements defined by law. The best conditions for living at home in a healthy environment.

Official inspection certificates and test labels also confirm our devoted commitment to the environment in all key domains – this is something that makes us particularly proud. We are one of the first in our industry to receive the FSC® label and hold PEFC™ certification.
